

COUNTRY COORDINATOR

Supporting ecological land use management in Eswatini

30 June 2024

Here's what has happened in the last quarter and what's to come!

Dear PELUM Partners and Friends,

We are pleased to present the latest edition of our newsletter, highlighting positive developments in the Agroecology Sector and the activities undertaken by various PELUM member organizations during the second quarter of 2024. In this quarter, we have exciting news to share:

Soil Quality and Sustainable Agriculture: We delve into the importance of soil health and its role in sustainable agriculture. Healthy soil acts as a dynamic living system that supports water quality, plant productivity, and nutrient recycling.

Agroecology and Biosafety Act: We discuss the Agroecology and Biosafety Act, highlighting its significance in promoting sustainable agricultural practices and ensuring environmental safety.

Eswatini Stands with the World at World Environment Day: Eswatini joined the global community in celebrating World Environment Day, emphasizing our commitment to environmental conservation and sustainable practices.

Tenvelo (Agroforestry): We feature Tenvelo, an agroforestry initiative that integrates trees and shrubs into agricultural landscapes, enhancing biodiversity and sustainability. Sustainable and Friendly

What's to Come at PELUM Eswatini: A preview of upcoming events and initiatives at PELUM Eswatini, including workshops, training sessions, and community outreach programs aimed at promoting agroecology and sustainable living.

We encourage everyone to continue taking care of our planet, which is our only home. We invite you to share this newsletter widely and follow PELUM Eswatini on Twitter, Instagram, and Facebook.

In this newsletter you can expect:

Sustainable and Freindly ways to produce Food.
